

Rithvik Inampudi

| rithvik.inampudi@gmail.com | github.com/rithvikinam | <https://www.linkedin.com/in/rithvikinampudi> | Dallas, TX

EDUCATION

Reedy High School, Frisco, TX

May 2027

GPA: 5.382 (weighted), 3.97 (unweighted)

Rank: 20/505

SAT: 1550; 800 (Math), 750 (Reading)

Relevant Coursework: Data Structures, AP Computer Science, Calculus 3, Differential Equations, AP Statistics

SKILLS

Programming Languages: Proficient in Python, *Swift, C++*; *familiar with SQL, Java*; *exposed to R, Scala*

Technologies: Git, REST Api Pytorch, Tensorflow, Node.js, React.js, MySQL, Raspberry Pi OS, CAD, FastAPI, Keras

EXPERIENCE

IT Hub, Leesburg, Virginia

May 2026 - August

2026

Software Engineering Intern

- Developed Python/pandas tooling to standardize and validate clinic patient records for EHR migration.
- Mapped patient data to FHIR R4 resources for integration with athenahealth's EHR APIs.
- Built FastAPI validation endpoints with PostgreSQL error tracking, retained for later migration batches.

Atlas, Dallas, Texas

August 2025-

Present

Researcher

- Researched integration of autonomous AI for diabetic retinopathy screening across healthcare systems.
- Presented research findings at academic conferences, including Stanford PSB, MAA MathFest, and Columbia.
- Evaluated AI diagnostic workflows and implementation barriers limiting scalable early detection.

University of Texas at Dallas, Dallas, Texas

May 2025 - August

2025

Research Intern

- Built an object detection model at UTD CAML Lab under Dr. Rishabh Iyer, achieving 90% mAP@0.5 and 0.90 precision
- Managed full model pipeline including data collection, training, and evaluation within a university research team; labeled 12k+ image dataset manually across 10 classes

PROJECTS

Waste Detection Model | Python, TensorFlow, Keras

December

2024

- Trained a TensorFlow/Keras computer vision model achieving 91% detection accuracy for municipal waste, deploying it onto a custom CAD-designed PCB.

Shell | C++, POSIX API

September 2025

- Built a custom command-line interface featuring an arithmetic and boolean logic parser alongside personalized file-launching commands.

Session Replay | Swift, JavaScript, Segment API, PostHog

March

2026

- Used Swift, Javascript, Segment Analytics API to capture microbehaviors of users Intersection visualized using heatmaps through posthog

LEADERSHIP & COMMUNITY INVOLVEMENT

CORE, Plano, Texas

November 2025 -

Present

Founder

- Created & distributed 250+ recovery kits to cardiovascular patients; expanded to 20+ chapters; fundraised \$4k

Cinmaya, Frisco, Texas

September 2023 -

Present

Volunteer

- Spent 200+ hours across 4 years in assembling and distributing meals in collaboration with other volunteers

HONORS AND AWARDS

- Honor/Award: USACO GOLD, 4th Place @UTD Battle of the Brains, 1st author @Mathfest & Stanford PSB
